

3, 2, 1... BLAST OFF!

Hello Adventure families!

This month we will be exploring our incredible solar system. Space history was part of my major in college, I am very excited to share it with your kiddos. We will start here on our very own Planet Earth and work our way through deep space. The children will learn about the first pioneers of the space program including Yuri Gagarin, the Mercury 7 and Sally Ride. We will also explore each planet individually and will incorporate some fun science crafts and projects.

Projects:

- ⚙ Puffy Paint Moon
- ⚙ Alien Puppets
- ⚙ Rocket ships

Letters E, F, G and H

“Climb Aboard”

(sung to “Itsy Bitsy Spider”)

Climb aboard the spaceship,
 We’re going to the moon.
 Hurry and get ready,
 We’re going to blast off soon.
 Put on your helmets
 And buckle up real tight.
 Here comes the countdown,
 Let’s count with all our might.
 10-9-8-7-6-5-4-3-2-1...BLAST OFF!!!!
